School Immunization Data

Data source:

These data come from public and private school immunization reports that are submitted to the Washington Department of Health, Office of Immunization and Child Profile. Washington state schools (except home schools) are required to report immunization data for kindergartners, 6th graders and all students in grades K-12 by November 1 each school year.

Data source: WA State Department of Health, Office of Immunization and Child Profile, 2016-2017 school data.
Created March 2017.

Technical notes

Data notes:

- This report is based on total counts of students by immunization status as reported by public, charter and private schools to DOH.
- The student immunization status is based on parent reports to the school and may not be verified by a healthcare provider.
- Only schools that reported data are included in this slide set. Some schools reported data but were excluded (ex: schools located in jails and hospitals, parent partnership programs, schools located out of district and online schools).
- DOH makes no other claims about the accuracy of the data as reported by schools.

Immunization status definitions:

- Complete: The student meets all the school-entry requirements for their age and grade.
- Exempt: The student has a signed Certificate of Exemption on file at the school excusing the student from one or more vaccinations due to medical, personal, or religious beliefs.
- Conditional: The student lacks appropriate documentation or is missing one or more of the required immunizations.
- Out-of-compliance: Conditional status has ended, but the student has not been fully immunized, does not have an exemption on file, or lacks appropriate documentation.
